

# David Lee

(929) 356-5858 | david.jobs.5858@gmail.com

## OVERVIEW

A highly motivated and solid skilled java developer with proven expertise in using new tools and technology to build high performance, low latency web service, along with exceptional analytical, design and problem-solving capabilities. Good team player with excellent communication skills and ability to work alongside support teams and costumers. Looking for an ambitious company which will challenge my developer and problem solving skills and allow me to continue to develop my knowledge and potential.

## OBJECTIVES

- Java Developer/Web developer

## TECHNICAL SKILLS

<b>Language</b>	Java, Python, HTML, CSS, PL/SQL, JavaScript, Linux shell scripting,
<b>Tech Stack</b>	Web Service, Object-oriented Programming, SOAP/RESTful, WSDL, AJAX, JDBC, Angular.js/JQuery/bootstrap, JSP, Servlet, Java Beans, EJB, JMS, JPA, XML/Json
<b>Database</b>	Microsoft SQL Server, MySQL, Oracle 11g
<b>Dev Tools</b>	Eclipse, NetBeans, SVN/Git, Tomcat, Maven, Junit, EasyMock, Jenkins
<b>Platform</b>	Linux, Windows
<b>Frame Work</b>	Spring boot/JPA-Data/MVC/AOP, Hibernate, Struts

## EXPERIENCE SUMMARY

- A Senior Java developer with more than 6 years of progressive experience, specializing in Core Java , SOA and OOD. Skilled in distributed system design, design pattern, and database.
- More than 6 years hand-on experiences with web technologies like Hibernate, Spring, Struts, Angular.js/JQuery , SOAP/REST, Servlets, JSP, AJAX, JDBC, JNDI, Java Beans, XML..

## PROFESSIONAL EXPERIENCES

<b>PNC Bank</b>	Pittsburgh, PA	10/2014 -Present
<b>Senior Java/J2EE Developer</b>		

- Implemented controllers to handle incoming request such as authentication, file upload, form validation, remote service call
- Implemented Dynamic file distribute Service using java multithreading and socket networking skills
- Conducted automate unit testing using JUnit and EasyMock
- Implemented DAO layer CURD operations based on Hibernate ORM and JDBC
- Used Rational Rose to draw UML diagrams and to develop the Use cases and Domain model .
- Designed user interface using Angular.js and Bootstrap.
- Used Hibernate for ORM and created configuration and mapping files.

<b>U.S. Cellular</b>	Bensenville, IL	6/2012 – 9/2014
<b>Java Developer</b>		

- esigned/developed UI with AJAX, HTML, DHTML and JavaScript for interactive web pages.
- Worked on Microsoft SQL Server integrated with Microsoft JDBC Driver to conduct complex SQL Queries.
- Also designed and prepared Unit test case using JUnit and Log4j and removed the maximum bugs before passing on the application to the QA team.

**Express Scripts**  
**Java Developer**

Franklin Lakes, NJ

3/2010 – 6/2012

- 
- Participated in the system study to understand the functionality of the current system.
  - Build user interface using JSP and Java Script; Developed EJB beans to create the business logic; Developed DAO's to perform database operations.
  - Planning and managing day-to-day activities and interaction with client to facilitate smooth implementation
  - Understanding business requirements. Involved in the SDLC process. Involved in writing Technical Design Document and Solution Specification and creating class diagrams. Used Spring Framework to build various modules of the system.
  - Development of the persistence layer of the application object structure using Hibernate Developed and implemented Queues and Topics that would be consumed by various Fannie Mae Systems to retrieve relevant information.
  - Used JAXB to marshall and unmarshall .xml files. Used Log4j to create loggers with different log levels and messages to monitor the system.
  - Understanding of business requirements Involved in all the modules of the application. Prepared Technical Design Document to understand the flow of the application. Participated in the analysis, design and the development of different modules for the integration with the application.
  - Involved in a team of designed and developers to design and implement the core modules. All Modules in the application are based on MVC architecture and J2EE technologies. Used design patterns to delegate requests to appropriate session EJB.

## EDUCATION & TRAINING

University of Florida  
Master of Science in Engineering

Gainesville, FL  
GPA 3.7/4.0
